Report of Independent Registered Public Accounting Firm

To the Trustees and Participants of the
IBERIABANK Corporation Retirement Savings Plan
Lafayette, LA

We have audited the accompanying statements of net assets available for benefits of the IBERIABANK Corporation Retirement Savings Plan as of December 31, 2007 and 2006, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the IBERIABANK Corporation Retirement Savings Plan as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at end of year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**IBERIABANK CORPORATION
RETIREMENT SAVINGS PLAN**

NOTES TO FINANCIAL STATEMENTS**DECEMBER 31, 2007 AND 2006****NOTE 1 – PLAN DESCRIPTION:**

The following description of the IBERIABANK Corporation Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan established in 1982. In 2005, the IBERIABANK Corporation Employee Stock Ownership Plan merged into the IBERIABANK Corporation Profit Sharing Plan and Trust, and the merged plan was renamed the IBERIABANK Corporation Retirement Savings Plan. In the same year the Plan was amended to create an employee stock ownership plan within the Plan, represented by the assets held in the form of employer securities. Participants are allowed to direct the investment of all of their account balance into various investment options offered by the plan. All employees of participating employers are eligible to participate in the plan provided they are age 18 or older. Any entity, whether an affiliate or subsidiary of IBERIABANK Corporation or not, may adopt this Plan and become a participating employer. The participating employers are IBERIABANK, Iberia Financial Services, LLC and Acadiana Holdings, LLC, Pulaski Bank and Trust, Lenders Title Company, and United Title of Louisiana. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Participants may contribute up to 100 percent of pretax annual compensation in the form of a salary reduction, as defined by the Plan. Participants who have attained age 50 before then end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. The employer may make a discretionary matching contribution equal to a percentage of the amount of the salary reduction elected by the participant. In addition, the employer may make an additional discretionary contribution based on a percentage of annual compensation. Contributions are subject to certain IRS limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the employer's contribution, and (b) the earnings from the participant's investment accounts, and (c) forfeitures of terminated participants' nonvested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon and in all dividends paid on employer securities. Vesting in the employer's matching and discretionary contribution portions of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after 6 years of credited service. Prior to death or retirement, participants vest in employer contributions and related earnings in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percent</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

On the occurrence of death, retirement, or Plan termination, a participant becomes fully vested in employer contributions and related earnings.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - These financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value.

The fair values of the Plan's interests in the Stable Value Fund are based upon the net asset values of such funds reflecting all investments at fair value, including indirect interests in fully benefit-responsive contracts, as reported by the Plan custodian.

The fair values of the Plan's interests of pooled separate accounts are based upon the net asset values as reported by the Plan Custodian. The dividends, interest, and realized and unrealized gains for the underlying funds are factored into the value of the separate account funds. The dollar value per unit of participation is determined by dividing the total value of the separate account by the total number of units of participation held in the separate account.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The common stock of IBERIABANK Corporation is traded on a national exchange and is valued using the last trading price on the last business day of the plan year. The participant loans are valued at their outstanding balances, which approximate fair value.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

Administration – Certain administration costs are paid by the participating employers as incurred.

Payment of Benefits - Benefits are recorded when paid.

Risks and Uncertainties – The Plan provides for various investment options in any combination of employer securities and certain investments. These investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

New Accounting Pronouncement

In December 2005, the Financial Accounting Standards Board (FASB) issued FASB Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the FSP). The FSP defines the circumstances in which an investment contract is considered fully benefit-responsive and provides certain reporting and disclosure requirements for fully benefit-responsive investment contracts in defined contribution health and welfare and pension plans. The financial statement presentation and disclosure provisions of the FSP are effective for financial statements issued for annual periods ending after December 15, 2006 and are required to be applied retroactively to all prior periods presented for comparative purposes. The Plan adopted the provisions of the FSP at December 31, 2006.

As required by the FSP, investments in the accompanying Statements of Net Assets Available for Benefits include fully benefit-responsive investment contracts recognized at fair value. AICPA Statement of Position 94-4, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined Contribution Pension Plans*, as amended, requires fully benefit-responsive investment contracts to be reported at fair value in the Plan's Statement of Net Assets Available for Benefits with a corresponding adjustment to reflect these investments at contract value.

NOTE 6 - PLAN TERMINATION:

In the event of plan termination, participants will become 100 percent vested in their accounts.

NOTE 7 – PARTIES-IN-INTEREST TRANSACTIONS:

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the plan, the Employer and certain others. Certain plan investments are held in pooled separate accounts managed by Principal Financial Group. Principal is also trustee as defined by the Plan and, therefore these transactions qualify as party-in-interest.

One of the investment options of the plan is IBERIABANK Corporation common stock. At December 31, 2007 and 2006, the Plan held an aggregate of 419,430.79 and 501,123.97 shares of IBERIABANK Corporation common stock valued at \$19,608,389 and \$29,591,370, respectively.
